Managing your payroll payments in a few simple clicks

- Run payroll as normal with BrightPay
- Approvers receive daily notifications of payments awaiting approval
- Top up the Modulr account
- Authoriser approves the payments in just a few clicks

The diagram illustrates the workflow: BrightPay sends data to Modulr, which is connected to various banks (Barclays, Lloyds Bank, HSBC, NatWest). Modulr then facilitates 'Outward' payments, which are approved by the client and sent to Payroll Payments and HMRC Payments.

How it works

- Quick and easy integration, no matter which client software
- One single dashboard to show and prioritise all payment tasks
- Connected via Modulr's Payments Dashboard
- Controlled and managed by you

The diagram shows a stack of components: Accounting Packs, Client Accounting Inland, Client Accounting, Client Accounting Software, and Payments Dashboard. These are all connected to a central 'Payments Out' output.

Built for accountants and bureaux to deliver a seamless customer experience

Accountants Manage payment services for customers alongside core accounting

Customers Delegate access to accountants & authorise transactions

The diagram shows a central 'Payments Dashboard' with five 'Client access' icons. It is connected to 'Accountants' and 'Customers'.

Benefits

- View multiple companies and client accounts from a single platform
- Better visibility of your clients' data, helping with accuracy and compliance
- Significantly reduce admin overheads while delivering a better service to clients

Greater insight to your client workflows

Benefits

- Client approves pre-populated batches of payments in a few clicks
- Payments can be authorised by clients from anywhere
- Approval permissions can be assigned to Accountant/Bureau if required

Full client control

Bacs vs. Faster Payments

	bacs	Faster Payments
Speed	3 days	90 seconds
Effort	Only available on business working days (within 3-day cycle period)	Payments can be sent 24/7, 365 days a year
Accuracy	Manual input leaves process prone to error/security risk	Automation improves accuracy, reduces errors and increases security
Flexibility	Higher-cost manual arrangements to make payments at short notice	One-off and emergency payments can be made at any time
Suitable for complex payroll	✗	✓

Questions and answers

The screenshot displays the Modulr website interface. On the left, the Modulr logo is shown above the URL www.modulrfinance.com/small-business and the email address smallbusiness@modulrfinance.com. The main content area features the BrightPay logo and the headline "Pay employees directly through BrightPay". Below this, there are two buttons: "I'm an Accountant/Bureau" and "I'm a business". On the right side of the page, there is a circular diagram illustrating the integration process, with icons for BrightPay, a person, a pound sign (£), and a person with a checkmark.
