

How thousands of UK businesses are saving time on payroll

Welcome to today's webinar

Presenters 

Eleanor Vaughey
Marketing Executive

Elaine Carroll
Digital Marketing Executive

Today we'll discuss

1. How cloud technology can boost your payroll process
2. BrightPay Connect's features and benefits
3. Questions and answers session

Managing Payroll with BrightPay Connect

Time-consuming manual work

Administrative duties

The power of the cloud

5 ways cloud technology can boost your payroll process

Automatic cloud backup

Automatic leave management

Employee communications

Employee self-service

Support for remote workers

5 ways cloud technology can boost your payroll process

Automatic cloud backup

Automatic leave management

Employee communications

Employee self-service

Support for remote workers

1. Automatic Back Up

Data loss
If you only keep the payroll data on your desktop, you are at risk of losing the information.

Remote Working
Hybrid working can present security concerns. Automatically backup payroll data to the cloud.

Disaster Recovery
How prepared are you for a disaster recovery situation?

Expensive Servers
With automatic cloud backup, you don't need to buy expensive servers to store your data.

5 ways cloud technology can boost your payroll process

Automatic cloud backup

Automatic leave management

Employee communications

Employee self-service

Support for remote workers

2. Annual Leave Management Tool

Eliminate manual processes

Annual leave Calendar

Employees can request leave on the go

Employee self-service portal

5 ways cloud technology can boost your payroll process
